# PRINCE JOSHI

**IT Support | Network Engineering | Cybersecurity**

Coventry, CV3 5GE | 07414 665 444 | princejoshi2007@gmail.com | linkedin.com/in/prince-joshi

## PROFESSIONAL PROFILE

Motivated and technically focused IT professional with a relevant academic grounding in IT and Cyber Security through a Level 3 BTEC Diploma (DMM), supported by ongoing BCA studies and hands-on lab environments. Certified in Google IT Support and Cyber Security Essentials, with structured training across CompTIA A+, Network+, and Security+. Practical experience includes Active Directory administration, Cisco Packet Tracer network simulations, Python automation, and security analysis using Nmap, Nessus, and Wireshark. Strong customer-facing communication, ITIL-aligned service delivery awareness, and a proactive troubleshooting approach. Seeking 1st Line IT Support, Service Desk, or Junior Cyber Security roles across Coventry and Leamington Spa. Fully eligible to work in the UK (no sponsorship required).

## CORE TECHNICAL SKILLS

- **Networking & Simulations:** TCP/IP, OSI Model, DNS, DHCP, LAN/WAN architecture, Cisco Packet Tracer environment design, Subnetting basics.
- **Cybersecurity & Analysis:** Vulnerability Assessments, Port Auditing, Network Reconnaissance, Nmap, Wireshark packet inspection, Nessus scanning.
- **Systems & Identity Admin:** Active Directory (User provisioning, Group Policies, Domain environments), Windows 10/11, Linux (Kali Linux, Ubuntu).
- **Automation & Tooling:** Python scripting (foundational automation and basic security tasks), ITIL-aligned service delivery, Incident Triage, Technical Troubleshooting.
- **Core Professional Skills:** Cross-functional teamwork, time management under strict KPIs, technical documentation, clear customer-facing communication.

## TECHNICAL PROJECTS & HOME LAB

**Cybersecurity, Networking & Systems Automation Lab** | *Self-Directed & Academic Practice*

- Developed and maintain a virtualised sandbox environment via VMware/VirtualBox to simulate, configure, and isolate enterprise enterprise-like networks.
- Utilised Active Directory Domain Services (AD DS) within a Windows Server sandbox environment to manage simulated users, access privileges, and group policy objects (GPOs).
- Designed and validated functional network maps in Cisco Packet Tracer, configuring basic routing, switching parameters, and static Access Control Lists (ACLs).
- Developed Python scripts to automate administrative tasks and organise system log files.
- Used Kali Linux tools (Nmap, Wireshark, Nessus) to perform packet analysis, vulnerability mapping, and diagnose configuration faults.

## PROFESSIONAL EXPERIENCE

**Waterpark Assistant** | CV Life, Coventry

*May 2026 – Present*

- Act as a professional first point of contact for diverse public enquiries, maintaining customer satisfaction metrics under high-volume conditions.
- Enforce strict regulatory safety compliance frameworks and emergency protocols, displaying a strong attention to operational detail.

- Monitor environment variables across active operational zones, logging real-time incident updates and escalating critical risks swiftly to supervisors.

**Warehouse Operative** | Walkers Snacks (via Adecco), Coventry

*Jul 2025 – Apr 2026*

- Managed high-speed inventory processing operations within tight SLA windows, reliably achieving daily delivery and packing quotas.
- Maintained flawless adherence to complex corporate health, safety, and strict hygiene compliance guidelines.
- Collaborated proactively within cross-functional operational teams to identify and resolve immediate workflow bottlenecks.

## EDUCATION

**BCA (Bachelor of Computer Applications)** — Chandigarh University (Online)

(2026 – Present)

Core Focus: Foundational computer architecture, data structures, and programming concepts.

**Level 3 BTEC National Extended Diploma in IT** — Coventry College, Coventry

(Sep 2024 – Jun 2026)

Grade: Distinction, Merit, Merit (DMM) | 112 UCAS Points
Core Modules: Cyber Security & Incident Management, IT Service Delivery, IT Project Management, IT Systems, Managing Information Systems.

**Level 2 BTEC Extended Certificate in Information & Creative Technology** — Coventry College, Coventry

(Sep 2023 – Jun 2024)

Grade: Double Merit

**GCSEs** — Meadow Park School, Coventry (Jun 2023)

4 GCSEs at Grade 4+ including Mathematics and English. Includes Effective Digital Working Practice (Level 2 Pass).

## PROFESSIONAL CERTIFICATIONS

- Cyber Security Essentials Programme – IIT Ropar & TCS iON (120+ Hour curriculum, Completed Jul 2026)
- Google IT Support Professional Certificate – Coursera / Google (Completed Jan 2026)
- CompTIA A+ / Network+ / Security+ Training Tracks – Udemy Academy (Completed 2025–2026)

## VOLUNTEERING & ADDITIONAL INFORMATION

- **Continuous Learning:** Regularly engaging with interactive platforms like TryHackMe and HackTheBox to stay sharp on core defensive security tracks.
- **Volunteering:** Active member in the National Citizen Service (NCS) and local community projects; guided youth-focused teams and helped facilitate regional public activities.
- **Right to Work:** Full UK work eligibility via a dependent visa valid until 2029 (No corporate sponsorship required).
- **Driving License:** UK provisional, working towards the practical test.
